

COOROY GOLF CLUB RECEIVES SUCCESSFUL \$40,000 QLD GRANT FROM NISER

The Cooroy Golf Club would like to express our deepest thanks and appreciation to the staff at NISER (Noosa Institute for Socio-Economic & Environmental Research). They helped the Club to obtain a grant to fix flood damaged bridges and pathways were damaged in last January's major floods.

NISER have been working with us for the last 6 months developing and submitting grant applications and we anticipate further success. We have been delighted with the way that NISER have understood our needs and responded with their expert knowledge.

We can honestly say that their personal attention to detail, ability to listen and translate our Club's aims has been fulfilling. Once again, we express our gratitude. We will be continue to use NISER for each application that we need to submit.

I wish to take this opportunity to thank both you Charles and Mimi for your assistance, support and commitment during this entire process. Regardless of the outcome with future grant applications, I firmly believe our exposure to NISER and the assistance we have obtained in achieving our successful grant will make our Club better and stronger for the experience. When the next opportunity arises for further endeavours it will be our intention to utilise NISER'S excellent services once again.

Without reservation, I would highly recommend NISER to any organisation requiring assistance with the preparation and submission of grant applications.
