(Mobile Active Recreation And Community Creative Art Space)

15<sup>th</sup> November 2011

## Testimonial

As a relatively new youth organization working on creative projects for young people we are thrilled with NISER's help with getting grants and helping us with our first major project.

Our project is to help young people from the Sunshine Coast Hinterland region to counter 'binge drinking' by providing alternative activities, such as Rock Climbing, Fire Twirling, Yoga, Dance, Painting and Art.

Our aim is for the kids to have 'fun' and learn that there are alternatives to 'binge drinking' and so now with NISER's help with the grant process it will assist us to reach our goals.

We will recommend NISER to other community groups and let them know what a great help you have been. Thank you, and your team, for all your help.

Regards

Jonas H Teixeira
